# HISTORY

## OF THE VICTORY CLUB...

Alpha Delta Phi's Victory Club reaches back in time over seventy years to the First World War, when fraternity members organized a gambling club to raise money for a Victory Loan drive in 1918. Entrance to the club was by the purchase of one or more Victory Bonds.

Driven underground by Prohibition in 1919, Victory Club flourished as a speakeasy and developed its present extravagant character during those roaring Twenties. Over the past seventy years Victory Club varied in size, frequency, and exclusivity, but finally re-emerged in the late seventies with a legal gambling license.

Philanthropy, gambling, champagne, black tie, and *serious fun*: these foundations have remained constant for over seventy years, and contribute to the enduring reputation of the Victory Club Charity Ball as the "Best Party in the Ivy League."

## ...and the Future

We have many exciting plans for expanding the scope of our activities. What can you do to help? How can we increase the benefits of membership? What other events can we offer? Better yet, what can YOU offer? Get involved... It's YOUR club!

# Our Charities

*Last year, Victory Club was able to raise more than ten thousand dollars for local and international Charity. Of course, Victory Club is inspected and audited each semester by State and local gambling authorities. In the past, Victory Club has cooperated with organizations like "Heal the Children," in one instance flying a Mexican child, Leonel, to Children's Hospital in Boston for donated reconstructive surgery. This semester, our charities include:*

## ITHACA REFUGEE PROGRAM LITERACY FUND

To establish a library of single copy texts for instruction, consumable work books, and true literacy materials for instruction in English as a second language. The library being created with your donation is unique in Ithaca and will benefit the area for years to come. Ithaca is home to a surprisingly large population of refugees including Vietnamese, Laotian, Cambodian, Afghan, and most recently, Russian immigrants for whom the Refugee Assistance Center volunteer instructors teach classes five days a week. Also, we have established a fund to help refugee children select their own reading materials at school Book Fairs. A letter from one child is reprinted on the following page...
